TITLE : THREAD CHIP HOLDING CUTTER

ABSTRACT : PROBLEM TO BE SOLVED: To provide a thread chip holding cutter in which a thread chip holding pad quickly holds a thread chip when it is cut.

SOLUTION: A pair of metal-made blades 1 is connected to a cutter body 2 in a nail cutter shape, that is a metal leaf spring shape, and the tips of the pair of metal-made blades 1 are kept open by the cutter body 2. Thread chip holding pads 3 are provided inside the pair of metal-made blades 1 respectively, and when the pair of metal-made blades 1 is closed, the pair of thread chip holding pads 3 is also closed. A pair of non-metal made slip-prevention pads 4 is provided at the outside of the cutter body 2. An eye hole 5 is provided at the end opposite to the blade side 1 of the cutter body 2, and an elastic holder 6 is provided at a position which guards the eye hole 5.
